

To the Honorable Commissioners of the FCC:

I am writing to you to comment on Docket No. 02-277, The Biennial Review of the FCC's broadcast ownership rules. I beleive in the right of citizens to be accurately informed through thier CHOICE of SOURCES. The media networks are no longer diverse, informative, or benefitial. The citizens of the US are entitled to share, debate, and discuss current events locally, domestically, and globally.

Independent media is the foundation of our country and one of the foremost important rights established by our founding fathers. Jefferson, Hamilton, Washington, and Franklin would be horrified at the condition of our so called freedoms. Limited ownership in the media will be the decay of future generations, the deterioration of ideas, and eliminate the opportunitites for creative thinkers who express themselves through independent media.

Since the "day the world changed" on September 11th our country has demolished the civil liberites and rights of citizens. To take away our freedom of speech and the option to chose an educational or benefitial program instead of some trashy, commercial infested show is an outrage.

I urge you to listen to the public and preserve the FCC's Broadcast Media ownership rules.

Thank you,  
Bethany
